

Table D-20. Number of employed 1995 and 1996 science and engineering master's degree recipients, by sector of employment and work-related training: April 1997

Sector of employment	Total employed	Work-related training ¹			
		Management training	Training in occupational field	General professional training	Other training
Total.....	135,800	20,300	80,000	19,900	6,200
Private industry and business (non-educational)					
Private, for-profit company ²	69,500	12,100	42,400	12,500	3,000
Nonprofit organization.....	8,400	1,700	6,200	1,400	S
Self-employed.....	2,100	S	1,300	S	S
Educational institution					
4-year college and university ³	28,100	1,000	9,600	1,700	1,000
Other educational ⁴	12,300	1,600	9,200	1,500	S
Government					
Federal Government.....	8,400	2,100	5,900	1,400	S
State or local government.....	7,000	1,500	5,400	1,100	S

¹ Respondents may report two or more types of work-related training.

² Persons reporting they were self-employed, but in an incorporated business, are classified as "private, for-profit."

³ Includes university-affiliated medical schools or research organizations.

⁴ Includes elementary, middle, secondary, and less than 4-year colleges or other educational institutions.

KEY: S = Data with weighted values less than 100 or unweighted sample sizes less than 20 are suppressed for reasons of data reliability.

NOTES: Details may not add to totals because of rounding.

These estimates on recent college graduates are obtained from a sample survey of individuals whose most recent bachelor's or master's degree is in a science or engineering field and may differ from degree counts presented in other SRS publications.
